QUELLES SONT LES COMPÉTENCES EN MANAGEMENT?

En bref, les compétences en gestion sont des compétences qui aident les managers à mieux diriger, motiver, organiser, planifier, budgétiser et résoudre les problèmes. Qu'il s'agisse de fixer des objectifs d'équipe qui se transforment en objectifs organisationnels ou de plaider en faveur d'une nouvelle embauche, les managers exploitent une poignée de compétences essentielles pour accomplir chaque aspect de leur travail.

Vous pouvez appliquer vos compétences en gestion à un large éventail de carrières et d'industries en dehors de <u>la gestion des personnes</u>. De nombreuses compétences nécessaires sont transférables entre ces différents rôles. Du <u>cadre intermédiaire</u> aux entrepreneurs, les compétences en gestion sont un atout précieux pour la plupart des professionnels.
